

VLA/ULW MFS 40 with integrated Loading Unit

The VLA serves to round off the product range. It is used to dig up the edge paths in front of a formation rehabilitation machine. If necessary, the loading belt is extended from the MFS. The transfer wagon serves to load the excavated material at a distance of up to 8.50 m away from the track axis.

Performance	1,5 cbm/min
Width hopper	2.200 mm
Heights hopper	1.200 mm
